A Throw Back to Childhood

- We actually forget we are growing old while we are working towards a bigger goal
- We feel nostalgic when we actually come across few things we enjoyed during our childhood
- One such thing is our project ,lets hope you enjoy it

HANG MAN !!!

Hangman is a paper and pencil guessing game for two or more players. One player thinks of a word, phrase or sentence and the other tries to guess it by suggesting letters or numbers, within a certain number of guesses.

contd...

The word to guess is represented by a row of dashes, representing each letter of the word. In most variants, proper nouns, such as names, places, and brands, are not allowed. If the guessing player suggests a letter which occurs in the word, the other player writes it in all its correct positions. If the suggested letter or number does not occur in the word, the other player draws one element of a hanged man stick figure as a tally mark.

contd...

The player guessing the word may, at any time, attempt to guess the whole word. If the word is correct, the game is over and the guesser wins. Otherwise, the other player may choose to penalize the guesser by adding an element to the diagram. On the other hand, if the other player makes enough incorrect guesses to allow his opponent to complete the diagram, the game is also over, this time with the guesser losing. However, the guesser can also win by guessing all the letters or numbers that appears in the word, thereby completing the word, before the diagram is completed.

Rules of the play

- 1 Play individually or in groups.
- 2 Have the student select a letter of the alphabet.
- 3 If the letter is contained in the word/phrase, the group or individual takes another turn guessing a letter and clicking Guess button
- 4 If the letter is not contained in the word/phrase, guess the next letter(you have only limited lives though)
- 5 If you have Done it right you can guess a New word by clicking the Restart button

A Noble Notion

Due to the Extremely violent Pic which is used conventionally we are responsible for the mental troubles it arises when you lose and thus we actually use no Diagram to depict hanging ,just a non violent way of actually seeing things.You have the lives mentioned for each guess so that you can be sure of guessing the next word

Where can you play

We are actually happy to announce that the game is available online at <https://abhishekab1995.github.io>

Hope you visit ,play,enjoy and hope its a happy reminiscent of your childhood
